1. Call Scripts
2. Email/Fax Templates

☐ **Reference Materials**

1. System Navigation Guide
2. Troubleshooting
3. Glossary & Definitions

| **QUICK START GUIDE**

First Steps with Any Account

When you receive an account to work on:

1. **Identify the Account**
2. Locate using: SAP#, LIMS#, practice name, or Billtrust#
3. **Find the SAP Number**
4. If only LIMS#: Search Salesforce → note SAP#
5. Use SAP# in GetPaid
6. **Open in GetPaid**
7. Search by SAP account number
8. Review: balance, aging, collection stage, all notes
9. **Verify Contact Info**

10. Primary: Billtrust (most reliable)
11. Fallback: Salesforce
12. Last resort: Practice manager or AP staff
13. **Determine Next Action**
14. Reference: Days Past Due strategy below
15. **Document Everything**
16. Who, what, when, contact info
17. Payment details and confirmation numbers
18. Next follow-up date

KEY SYSTEMS SUMMARY

The Five Core Systems

System	Purpose	Primary Uses
GetPaid	Collections workbench	Account lookup, follow-up, payment documentation, notes
SAP	Accounting & AR system	Invoices, holds, ZOAR (CC payments), accounting records
Billtrust	Invoice delivery & payments	ACH processing, CC payments, customer contact info
Salesforce	Customer research & lookup	LIMS → SAP connection, emails/phones, loyalty points
LIMS	Lab account numbers	Practice-side account identifiers

System Connections Map

Practice has: LIMS number
↓ (Search in Salesforce)
Find: SAP number
↓ (Use in GetPaid)
Work with: Account balance, notes, contacts
↓ (Update in)
Document: Payment details in GetPaid

| ACCOUNT NUMBERS AT A GLANCE

SAP Account Numbers

Used in: GetPaid, SAP, Billtrust (always use this format) - **Older format:** 0000001965 (E2VET) - **Newer format:** 0000400000 (PTS.NART) - Always includes leading zeros

LIMS Account Numbers

Laboratory Information Management System (used by practice's lab) - **USA format:** Small number, no leading zeros (e.g., 1965) - **Canada format:** Letters + numbers (e.g., M5Q)

How to Match Them

1. Get LIMS from customer → Search Salesforce
2. Salesforce shows corresponding SAP#
3. Use SAP# in GetPaid and other IDEXX systems

| DAILY WORKFLOWS

Workflow 1: Account Check-In

When: You're assigned an account to review

Step 1: Identify & Open - Locate SAP account number (use Salesforce if needed) - Search GetPaid for the account - Open the account record

Step 2: Review Status - Current balance - Aging buckets (days past due) - All prior notes - Collection stage

Step 3: Assess - Recent payment pending? - Holds in place? - Collection history? - Recently contacted?

Step 4: Next Action - Refer to [Collections & Follow-Up](#) table - Follow stage-based contact strategy

Workflow 2: Processing a Payment

When: Customer submits payment (ACH, CC, or check)

Step 1: Receive & Confirm - Get payment details from Billtrust or customer - Confirm method: ACH → Billtrust | CC → SAP/Billtrust | Check → Note details

Step 2: Document in GetPaid - Open account in GetPaid - Copy all confirmation details into notes: - Payment method - Amount - Confirmation number - Payment date - Bank/processor reference (if ACH)

Step 3: Verify Posting - Check GetPaid balance reflects payment - CC payments: 1-2 days to post - ACH payments: 1-2 business days

Step 4: Follow-Up if Needed - If payment promised but not received, escalate per collection strategy - If partial: note which invoices were cleared

Workflow 3: Setting Up a Payment Plan

Step 1: Gather Information - Account number - Total outstanding balance - Proposed payment amount & frequency - Customer contact

Step 2: Review Payment History - Check GetPaid notes and history - Use Print icon to view transaction types - Confirm account hasn't missed plans before

Step 3: Enter Payment Plan - Use Billtrust or SAP (ZOAR screen) - Schedule payments with dates - Get confirmation number

Step 4: Document & Confirm - Paste all details in GetPaid notes - Send written confirmation to customer - Reference plan in all communications

Step 5: Monitor - Note due dates in GetPaid - Set reminders for follow-up - Update as payments post

Workflow 4: Removing Holds & Suspensions

Important: Credit Hold in SAP blocks online orders and prevents service updates.

Step 1: Verify Payment Current - Confirm past-due amount is paid - Check GetPaid balance is \$0 or acceptable - Verify SAP shows account current

Step 2: Remove Credit Hold in SAP - Open SAP → Account - Remove credit hold flag - Save changes

Step 3: If Lab/Telemedicine Suspended - Notify Transportation Liaison (courier can resume) - Notify Telemedicine Accounts team (services can resume) - Document in GetPaid

Step 4: Document - Log hold removal date - Note systems updated - Update GetPaid comments

❏ **CRITICAL:** If removing credit hold, always check for lab blocks too!

| PAYMENT PROCESSING

Credit Card Payments

System: SAP → ZOAR screen **Used for:** One-time payments or CC payment plans

Process: 1. Get from customer: Card#, Exp, CVV, Name, Billing ZIP 2. In SAP, open ZOAR transaction 3. Enter payment details 4. Verify amount & account 5. Submit payment 6. Get confirmation# and verify posting 7. Paste confirmation in GetPaid notes

ACH / Check-by-Phone Payments

System: Billtrust / Client Connect **Used for:** Direct bank transfers, recurring, or customer preference

Process: 1. Go to Billtrust or Client Connect 2. Search customer/account number 3. If no email: look up in Salesforce and add 4. Confirm outstanding balance 5. Accept ACH details from customer 6. Process payment 7. Get confirmation# (posting in 1-2 business days) 8. Paste in GetPaid notes with expected posting date

Credit Card Maintenance

System: SAP → ZICN or BP (Maintain Business Partner)

To Update a Credit Card on File: 1. Open SAP → ZICN or BP transaction 2. Enter SAP account number 3. Go to Payment Cards section 4. Click card to edit 5. Press F4 (lookup/enrich) 6. Update:

Card#, Type, Exp Date, Name on Card 7. Save 8. Note card update in GetPaid

Maintaining Card Information in BP

SAP BP (Business Partner) - Credit Segment: 1. In SAP, open BP transaction 2. Under Purchase Dept line select CUST NO 3. Navigate to Credit Segment data 4. Update card information as needed 5. Save changes

| COLLECTIONS & FOLLOW-UP

Collection Stages by Days Past Due

Days	Stage	Action	Method
0	Reminder	Invoices due on 25th of following month	None
>4	Reminder	Send reminder notice	Fax/Email (call if no fax)
2-7	Escalated Serious	Send escalation notice (past due alert)	Fax/Email (call if no fax)
2-8	Problem Serious	Send delinquency notice + warn of 30-day hold	Fax/Email (call if no fax)
≥30	Order Hold	Place order hold in SAP + explain impact	Fax/Email (call if no fax)
≥40	Lab/Telemed Suspension Pending	Email sales team (RM, VDC, VDS, DR, VSS, VSS Manager)	Email
≥42	Lab/Telemed Suspension	Call customer + notify transportation & telemedicine	Phone call + email
≥54	Final Demand Letter	Mail physical letter with collections threat	Physical letter
≥69	3rd Party Collections	Write off balance + send to agency	Email to agency

Special Note: DO NOT SUSPEND on Fridays or last business day of week (prevents account resolution over weekends).

Typical Contact Strategy

For Accounts with Balance < \$50,000:

- **Early stage** (0-30 days): Fax/Email communication
 - **Mid stage** (30-42 days): Fax/Email + phone calls
 - **Late stage** (42+ days): Phone calls to customer, emails to internal teams
 - **Final stage** (69+ days): Write off and send to collections agency
-

COLLECTIONS CALL SCRIPT (Over 60 Days)

Use this script for accounts significantly past due.

Opening

"Hi, may I speak with [Practice Manager or AP contact] please?

Hi, this is [your name] calling from IDEXX Laboratories. I'm reaching out regarding your account — I wanted to let you know that a recent credit card payment came back as unsuccessful and we weren't able to process it.

The outstanding balance on the account is [amount]. I wanted to reach out today to see how you'd like to take care of that.

We do have a few options available — we can retry a credit card, process an ACH payment, or if needed, we can look at setting up a payment arrangement. Whatever works best for you.

How would you like to handle this?"

Talk Track for Over 60 Days Past Due

I. Normal Intro - Confirm speaking with person responsible for payment - If voicemail: Leave details of past-due balance and due date - If general voicemail: Say calling about open/unpaid invoices, request callback by end of week

II. Contact Verification "We have been reaching out for the past few weeks regarding unpaid invoices. I have been sending emails/faxes to {insert address here}. Is this the best email/fax to send to? Have you been receiving your statements?" - Update if necessary - Check Billtrust for delivery method

III. Payment Discussion "The total overdue is \$XX,XXX.XX. How would you like to process payment for that today?"

- **If they can pay full:** Process via preferred method (CC or check)
- **If partial payment:** Ask "How much CAN you pay today?" Try for half now, half in 1-2 weeks, clearing oldest month in full. Discuss payment plan if needed.
- **If unable to commit:** Ask when they CAN pay. Try to schedule for next week.

IV. Overcome Objections - "The account is significantly past due—it's important we see payment today/near future" - Ask open-ended questions: Who, What, Where, When, How much, Why? - For checks: "I can process this and save you postage." If they don't have check info,

look up previous check in Wells Fargo CEO and process from routing/account number.

V. Verbally Abusive Customers - First: "If you continue speaking that way, I'll need to disconnect this call" - If continues: "I don't feel this call is productive. I'll call you back tomorrow/Tuesday"

| ACCOUNT MANAGEMENT IN SAP

Viewing Account Information

1. Open SAP
2. Use account lookup tool
3. Review: invoices, balance, credit holds
4. For CC payments: Navigate to ZOAR screen

Placing a Credit Hold

What it does: Blocks online orders placed by practice, blocks IDEXX from updating services/Care Plus/standing orders

To place: 1. Open SAP 2. Go to account 3. Set credit hold flag 4. Save changes 5. Allow 2-4 hours for propagation

To remove: 1. Verify account is current (or on payment plan) 2. Open SAP 3. Remove credit hold flag 4. Save 5. Also check for lab blocks (see below)

CREDIT HOLD & LAB SUSPENSION

Understanding the System

Credit Hold = SAP entry that blocks customer orders and IDEXX service updates

Lab Blocks & Suspensions = System to control lab work processing

Lab Block in LYNXX

- Lab work is still **tested**
- But results are **NOT RELEASED** to the practice
- Practice can't see results until hold is lifted

Lab Suspension / Courier Pickup

- **Courier pickup** = Transportation physically picks up samples
- **Direct/FedEx** = Practice mails samples in prepaid envelope
- Email Transportation Liaison to suspend courier pickups
- They respond with status (may say "account is DIRECT")

When Removing Credit Hold

CRITICAL: If you remove a credit hold, ALSO check for lab blocks!

Checklist: - [] Remove credit hold in SAP - [] Check if lab block exists in LYNXX - [] If lab block exists, get it removed - [] Notify Transportation Liaison if courier was suspended - [] Notify Telemedicine team if services were suspended - [] Document everything in GetPaid with date

Documentation in GetPaid

- Note: "Blocked in LYNXX [DATE]"

- Note: "Suspended & Reinstated [DATE]"
- Can see lab transaction emails in Comments field

PAYMENT METHODS & SYSTEMS

Method Comparison

Method	System	Speed	Best For
Credit Card	SAP ZOAR or Billtrust	Immediate (posts 1-2 days)	One-time payments, recurring plans
ACH/Check-by-Phone	Billtrust / Client Connect	1-2 business days	Direct bank transfers, customer preference
Physical Check	Mail-in	3-5 days	Customers without bank access
Payment Plan	SAP ZOAR or Billtrust	Scheduled	Accounts that can't pay in full

Processing Priority

1. **ACH** = Preferred (least fees)
2. **Credit Card** = Second choice
3. **Check** = Last resort (fees, processing time)

BANK MEMO NOTICES

When: ACH payments failed or didn't clear

System: GetPaid

Procedure: 1. Enter account number in GetPaid 2. Check notes to understand why ACH failed 3. Highlight account row → Copy 4. Right-click → Send 5. Select "Bank Memo Notice" from dropdown 6. Click "Edit and Send" 7. Paste bank memo in email template 8. If account shows RED: Look up contact in Salesforce first 9. Send notice

STATEMENT MANAGEMENT

Viewing a Statement

System: Billtrust

Steps: 1. Go to Billtrust 2. Check "Statement" checkbox 3. Download statement

Typical Statement Contents

- Invoice dates
- Amounts
- Payment history
- Aging buckets

| INTEREST REVERSAL

When Needed

- Customer requested interest waiver
- IDEXX policy allows removal
- Calculation error

SAP Procedure

Query: SQ01 (Interest Reversal Query)

Steps: 1. Open SAP → SQ01 2. Use "Default" variant 3. Enter customer number 4. Execute query 5. Double-click to open record 6. Set **Posting Interest Date = Today** 7. Save changes

| CALL SCRIPTS

Standard Collections Call Script

Opening: "Hi, may I speak with [Practice Manager or AP contact] please?"

Hi, this is [your name] calling from IDEXX Laboratories. I'm reaching out regarding your account regarding your account [account number]. Your account currently has an outstanding balance of [amount] that is [X days] past due.

I wanted to reach out today to see how you'd like to take care of this.

We have several options available: - Retry a credit card - Process an ACH payment - Set up a payment plan if needed

What works best for you?"

After Call - Always Document: - Name & title of person spoken with -
Date & time of call - Topics discussed - Payment method agreed upon -
Promise date or follow-up date - Any special circumstances

Credit Card Payment Failed Script

"Hi, may I speak with [Practice Manager or AP contact] please?

Hi, this is [your name] from IDEXX Laboratories. I'm reaching out regarding your account. A recent payment we attempted didn't go through successfully, and we need to try a different approach.

The outstanding balance is [amount]. Would you prefer to: - Retry the credit card with updated information? - Process an ACH payment instead? - Set up a payment plan?

What works best for you?"

Over-60-Day Account Script

(See section [Collections Call Script \(Over 60 Days\)](#) for full talk track)

EMAIL/FAX TEMPLATES

Template 1: Reminder Notice (>4 days past due)

Subject: Outstanding Invoice Reminder — Action Needed

Dear [Practice Name],

We wanted to reach out regarding your account with IDEXX Laboratories. You have an outstanding balance of **[\$[amount]]** that was due on **[date]**.

To keep your account in good standing, please remit payment at your earliest convenience.

Payment Options: - Credit Card: [contact info] - ACH: [contact info] - Check: [address]

If payment has already been sent, please disregard this notice and accept our thanks.

Best regards, IDEXX Credit Specialist

Template 2: Past Due Notice (2-8 days past due, "19" stage)

Subject: Past Due Notice — Account [Account #]

Dear [Practice Name],

Your account with IDEXX Laboratories is now **past due** with an outstanding balance of **[\$[amount]]**.

We request immediate payment to avoid further collection action. Service restrictions may be placed on your account if payment is not received within 30 days.

Please contact us immediately at [phone number] or [email] to arrange payment.

Thank you, IDEXX Credit Specialist

Template 3: Order Hold Notice (≥30 days past due)

Subject: Order Hold Placed — Account [Account #]

Dear [Practice Name],

Due to an outstanding balance of **[\$amount]** that is **significantly past due**, we have placed a hold on your account effective immediately.

Impact: - Online orders are blocked - Standing orders are suspended - Service updates are restricted

To Lift the Hold: Contact us immediately to arrange payment or a payment plan.

Payment Options: - Full payment - Payment plan - Partial payment with committed schedule

Reference lab and telemedicine services may also be impacted if payment is not resolved.

Contact us today: [phone] | [email]

IDEXX Credit Specialist

Template 4: Lab/Telemedicine Suspension Notice (≥42 days past due)

Subject: URGENT — Reference Lab & Telemedicine Suspension

Dear [Practice Name],

Your account is **delinquent by [X] days** with an outstanding balance of **[\$amount]**.

Effective immediately, we are suspending: - Reference laboratory services - Telemedicine services - Courier pickups

To Restore Services: Call immediately: [phone number]

Payment options: - Full payment - Payment plan

Services will resume upon payment or approval of a reasonable payment plan.

IDEXX Credit Specialist

Template 5: Final Demand Letter (≥54 days past due)

This is mailed as a physical letter

[Date]

[Practice Name & Address]

RE: FINAL DEMAND FOR PAYMENT — Account [Account #]

Dear [Practice Name],

This notice will serve as a **FINAL DEMAND**.

To date, all attempts to collect this debt have been unsuccessful.

Outstanding Balance: \$[amount] Delinquent Since: [date]

Unless we receive **\$(amount) by [date - 14 days from letter date]**, we will be forced to place your account with a collection agency and/or attorney for collection.

If you do not wish this action, please contact me directly.

This will be our last request for your cooperation.

It is our sincere hope that you will respond promptly to avoid further collection action.

If payment has already been made since [date of letter], please accept our sincere thanks and disregard this notice.

Respectfully,

[Your Name] IDEXX Laboratories Credit Specialist

SYSTEM NAVIGATION GUIDE

GetPaid

- Primary: Account search by number or name
- Secondary: Note all actions and payments
- Document: All communication and decisions

Key Fields: - Balance - Aging buckets - Notes & History - Transaction types

SAP

- Use for: Invoices, account holds, credit card payments
- Main transaction: ZOAR (for credit card payments)
- Hold management: Credit hold flag in account

Key Screens: - Account lookup - Invoice view - ZOAR (payment) - ZICN or BP (card maintenance)

Billtrust

- Use for: Invoice delivery, ACH payments, contact info

- Reliable for: Email and phone numbers
- Primary action: Process ACH and CC payments

Key Actions: - Search account - View invoices - Accept payments - Update contact info

Salesforce

- Use for: LIMS → SAP account lookup
- Source for: Emails and phone numbers
- Reference for: Customer information

Key Search: - By practice name - By LIMS number - By account number

LIMS

- Lab-side account numbers
 - USA format: Small numbers
 - Canada format: Letters + numbers
-

| TROUBLESHOOTING

Q: I have LIMS but no SAP number A: Search Salesforce for LIMS → Find SAP# → Use in GetPaid

Q: Can't find customer email A: Try Billtrust first (most reliable) → Then Salesforce → Then call practice main line

Q: CC payment shows in SAP but not GetPaid A: Typically 1-2 day delay. Check SAP ZOAR screen. If still pending after 2 days, call customer to verify card was processed.

Q: Customer says they already paid A: Check Billtrust payment history → Check SAP → Get confirmation# from customer → Trace through system → Verify posting date

Q: Order hold still active after removal A: May take 2-4 hours to propagate. Verify hold flag is actually removed in SAP. If persists, contact SAP support.

Q: Payment posted but balance still shows past due A: May need manual adjustment. Check which invoices were cleared. Document in GetPaid. May require AP intervention.

Q: Lab block won't clear A: Contact LYNXX support or Transportation Liaison. Confirm block was actually removed. Document attempt date.

| GLOSSARY & DEFINITIONS

ACH — Automated Clearing House (direct bank transfer)

AP — Accounts Payable staff at the practice

Billing Zip — Billing address ZIP code (required for CC verification)

BP — Business Partner (SAP transaction for customer account management)

Care Plus — IDEXX service/subscription offering

CVV — Card Verification Value (3-4 digit security code on back of CC)

DTS — Loyalty points/rewards system in Salesforce

E2VET — Older SAP account number format

GetPaid — Collections management system (primary workbench)

IDEXX — Idexx Laboratories (employer)

LIMS — Laboratory Information Management System (practice-side account #)

LYNXX — System for lab blocks and result release control

PTS.NART — Newer SAP account number format

Posting Date — Date a payment actually clears in the system

Promise Date — Date customer commits to making a payment

SAP — Systems, Applications, Products (accounting & AR system)

ZOAR — SAP screen for processing credit card payments

Telemedicine — Remote veterinary consultation services

Transportation Liaison — IDEXX staff managing lab courier pickups

RM, VDC, VDS, DR, VSS — Sales/Territory titles (notified for pending suspensions)

APPENDIX: STANDARD OPERATING PROCEDURES

Daily Routine Checklist

- [] Check GetPaid for new accounts/tasks
- [] Review accounts in "Reminder" stage
- [] Send required communications (fax/email)
- [] Process any received payments
- [] Follow up on promised payments
- [] Update all GetPaid notes

- [] Check for accounts reaching escalation thresholds
- [] Document all actions with confirmation numbers

Weekly Tasks

- [] Review all accounts ≥ 40 days past due
- [] Email field sales team for pending suspensions
- [] Process payment plans
- [] Follow up on promised but not received payments
- [] Review account hold status

Monthly Tasks

- [] Generate collections report
- [] Review suspension/hold log
- [] Process final demand letters for ≥ 54 day accounts
- [] Write off aged accounts and send to collections
- [] Reconcile payment documentation

| CONTACT INFORMATION TEMPLATE

Internal Contacts to Keep Handy:

Role	Use For	Contact
Transportation Liaison	Lab suspensions	[Email/Phone]
Telemedicine Accounts	Telemedicine suspensions	[Email/Phone]
Sales Management	Pending suspensions	[Email/Phone]
AP/Accounting	Account questions	[Email/Phone]
Collections Agency	69+ day write-offs	[Email/Phone]
Your Manager	Escalations	[Email/Phone]

VERSION HISTORY
